A very nice selection of possibilities!

Vikus

I love the patterns and pictures. Makes me want to work every project

Lestony

This book has some really cute patterns for all occasions. And the patterns also work for other things like fobs or needle cases too. I made the reindeer as an xmas ornament for a friend even.

I give this book only 4 stars not because I don't like it enough for 5 stars but because I don't really use it enough to give it 5 stars.

But it is definitely worth owning!
